Keystone produces more than just steel lintels. Our range of specialist products is designed to meet the needs of even the most complex project.

Hi-therm+

Keystone has redefined lintel performance with Hi-therm+, designed to exceed the thermal requirements in forthcoming building regulations. Hi-therm+ is supported by an advanced technical service package.

Standard Lintels

Keystone produces a wide range of standard galvanised steel and stainless steel lintels. All Keystone standard lintels satisfy the thermal performance requirements of all UK building regulations.

Stainless Steel

Keystone's full range of lintels are also available in stainless steel, providing the same high quality and performance features as our standard galvanised lintels.

Special Lintels

Keystone offers a complete custom design service to ensure your project has the best lintel for the job. Our technical expertise is renowned for delivering solutions with total efficiency.

Brick Slip Feature Lintels

Keystone Brick Slip Feature Lintels are a one piece, prefabricated unit, manufactured with factory applied brick slips. We produce Brick Feature Lintels to order and can achieve even the most challenging architectural designs.

Windpost Systems

Keystone Windposts span vertically between floors to provide additional lateral support for large panels of brickwork or large panels with openings. Keystone manufactures three types of windposts.

Non-combustible Cavity Tray Lintels

The Keystone Non-combustible Cavity Tray Lintel offers a non-combustible stainless steel single leaf lintel with combined cavity tray. Manufactured in Class A1 grade 304 austenitic stainless steel, the NCCTL is the ideal specification for Document B compliance.
